Marsh & McLennan Companies

Identity Protection Benefit Program

Identity protection solutions, supplied by InfoArmor, are made directly available to all eligible employees (family or household members are also eligible for coverage). Marsh & McLennan Companies' sole function with respect to the program is permitting it to be publicized to employees, collecting premiums through payroll deductions and remitting them to the insurer.

InfoArmor's PrivacyArmor and PrivacyArmor Plus includes identity and credit monitoring with additional privacy protection features, to alert you of suspicious activity most commonly associated with identity theft.

You also have access to remediation services and an Identity Theft Insurance Policy to help restore your credit and identity if your personal information has been stolen and used fraudulently.
