## Filing a Claim

If you use an in-network provider, in almost all cases, you do not have to file a claim form. Nearly all routine services require you to provide an ID card for services and a COPAYMENT for some services. The providers will file a claim directly with the Claims Administrator. You will rarely need to file a claim with an HMO (one exception may be approved emergency care obtained out-of-network). In the very rare cases that you might need to file a claim, contact the Claims Administrator.

If you receive services from a provider who does not participate in the network, those services will not be covered. Out-of network benefits are not covered under the HMO Plan except in an emergency.

## For Flexible Spending Account Reimbursement

If you participate in the Health Care Flexible Spending Account, you must complete a Flexible Spending Account (FSA) Claim Form and return it as the form instructs for reimbursement.

## Appealing a Claim

There are special rules, procedures and deadlines that apply to appeals of benefit determinations and denied claims and you have special legal rights under ERISA. Please refer to the *Administrative Information* section for a description of the appeal process.

## CONSOLIDATED OMNIBUS BUDGET RECONCILIATION ACT (COBRA)

---

A Federal law that lets you and your eligible family members covered by a group health plan extend group health coverage temporarily, at their own expense, at group rates plus an administrative fee, in certain circumstances when their coverage would otherwise end due to a "qualifying event", as defined under COBRA.

A "qualifying event" under COBRA includes loss of coverage as a result of your leaving the Company (other than for gross misconduct); a reduction in hours, your death, divorce or legal separation; your eligibility for Medicare, or a dependent child's loss of dependent status; or, if you are a retiree, loss of coverage due to the Company filing for bankruptcy.

## COORDINATION OF BENEFITS

---

You or a covered family member may be entitled to benefits under another group health plan (such as a plan sponsored by your spouse's employer) that pays part or all of your health treatment costs. If this is the case, benefits from this plan will be "coordinated" with the benefits from the other plan. In addition to having your benefits coordinated with other group health plans, benefits from this plan are coordinated with "no fault" automobile insurance and any payments recoverable under any workers' compensation law, occupational disease law or similar legislation.

## COPAYMENT

---

The flat dollar amount you pay for a certain type of health care expense.

## COVERED SERVICE(S)

---

Medically necessary health services provided for the purpose of preventing, diagnosing or treating a sickness, injury, mental illness, substance abuse, or their symptoms.

Covered health services must be provided:

- when the plan is in effect
- prior to the effective date of any of the individual termination conditions set forth in this Summary Plan Description
- only when the person who receives services is a covered person and meets all eligibility requirements specified in the plan.

Decisions about whether to cover new technologies, procedures and treatments will be consistent with conclusions of prevailing medical research based on well-conducted randomized trials or group studies.

The Claims Administrator determines only the extent to which a service or supply is covered under the plan and not whether the service or supply should be rendered. The coverage determination is made using the descriptions of covered charges included in this section and the Claims Administrator's own internal guidelines. The decision to accept a service or obtain a supply is yours.

- a child for whom you and your spouse are the legally appointed guardian with full financial responsibility
- the child of an approved domestic partner
- your stepchild
- your legally adopted child or a child or child placed with you for adoption.
- **Note:** Any child that meets one of these eligibility requirements and who is incapable of self support by reason of a total physical or mental disability as determined by the Claims Administrator, may be covered beyond the end of the calendar year in which the child attains age 26.

Dependent children are eligible for healthcare coverage until the end of the calendar year in which they attain age 26. This eligibility provision applies even if your child is married, has access to coverage through his or her employer, doesn't attend school full-time or live with you, and is not your tax dependent.

**Note:** While married children are eligible for healthcare coverage under your plan until the end of the calendar year in which they attain age 26, this provision does not apply to your child's spouse and/or child(ren), unless you or your spouse is the child's legally appointed guardian with full financial responsibility.

The Company has the right to require documentation to verify the relationship (such as a copy of the court order appointing legal guardianship). Company medical coverage does not cover foster children or other children living with you, including your grandchildren, unless you are their legal guardian with full financial responsibility - that is, you or your spouse claims them as a dependent on your annual tax return.
