- make an appointment and tell the doctor you are a VSP member through Marsh & McLennan Companies, Inc.

Your doctor and VSP will handle the rest.

How the Plan Works

The Vision Care Plan provides coverage to help with your and your family's vision care expenses. As a participant of this Plan, services can be received from any VSP network doctor or out-of-network provider. However, you get the best value from your VSP benefit when you visit a VSP network doctor.

Note: Expatriates are reimbursed up to the amount allowed under the Plan's out-of-network provider reimbursement schedule.

Do I have to satisfy a deductible to use the Plan?

There are no deductibles under this Plan.

Am I responsible for a copayment when I visit my VSP doctor?

Yes, you will need to pay any copayment(s) to the VSP doctor during your visit. Copayments apply to both you and your family members covered under the Vision Care Plan. Click on Verify Your Coverage through www.vsp.com for copayment information.

You may submit a Health Care Flexible Spending Account (FSA) claim form for expenses not covered by the Plan (for any copayments or any other amount not covered) to the Flexible Spending Account CLAIMS ADMINISTRATOR for processing, if you have an account.

About the Vision Discount Program

The Vision Care Plan provides you with an affordable eye care plan. Without coverage, you could spend \$300 or more for your exam and prescription glasses.

The Vision Discount Program provides you with discounts on vision services received from VSP network doctors.

Finding a VSP Network Doctor

Finding a VSP network doctor is easy. Visit VSP's online Doctor Directory at www.vsp.com or contact VSP's Member Services Department at +1 800 877 7195.

Once I find a VSP network doctor, or if I decide to change my VSP network doctor, how do I notify VSP of my selection?

It is not necessary to notify VSP when selecting or changing VSP network doctors. When you're ready, simply make an appointment with your new VSP network doctor and inform them of your VSP coverage through Marsh & McLennan Companies, Inc.

Does VSP's network of doctors include optometrists as well as ophthalmologists?

Non-VSP Doctors

Can I see an out-of-network provider?

Yes, VSP will reimburse you up to the amount allowed under your Plan's out-of-network provider reimbursement schedule. The reimbursement rate does not guarantee full payment, and VSP cannot monitor the quality of services received from an out-of-network provider.

What to Know About Vision Care

Why should I have my eyes examined regularly?

According to the American Optometric Association, routine eye exams can detect a number of serious health conditions such as glaucoma, cataracts, diabetes, and even cancer.

How frequently should I have my eyes examined?

You and your doctor should determine the eye exam schedule that best meets your eye care needs. However, as a general rule, the American Optometric Association recommends that you should not go beyond two years to have your eyes examined. Those with a family history of eye diseases, diabetic patients, and anyone whose general health is poor or who are taking medications that may have potential side effects on the eye may need to have their eyes examined twice a year.

Do I need a special eye exam as I get close to, or past, age 40?

The American Optometric Association recommends that you continue to have your regular eye exam at least every two years. As you age, you are more susceptible to certain eye diseases such as cataracts, glaucoma, and macular degeneration. Getting your eyes regularly examined helps your eye doctor detect the first signs of disease and prescribe the appropriate treatments to prevent vision loss.

When should my child have their first eye exam?

The American Optometric Association recommends that children have their first regular eye exam at 6 months. A thorough exam should be done by age 3 because this is the age when a child's visual system undergoes its most rapid development and vision correction is most effective.

How frequently should children's eyes be examined after their initial exam?

According to the American Optometric Association, children's eyes should be examined every two years—or more frequently if there is an eye or vision problem or a family history of eye disease. School children use their eyes more frequently than some adults to read and perform other school activities, so it's important for them to have regular eye exams. Also, it is important to remember that an eye screening typically offered at school only tests distance and will not detect some vision problems. Your child could have problems with near vision, eye coordination and focusing and still have 20/20 distance vision.

What is the difference between a routine eye exam and a contact lens exam?

Routine eye exams are designed to detect vision problems and are an important preventive measure for maintaining your overall health and wellness. In fact, according to the American Optometric Association, a thorough eye exam can detect certain medical conditions, such as glaucoma and diabetes.

Contact lens exams are designed to evaluate your vision with contact lenses. Although your vision may be clear and you feel no discomfort from your lenses, there are potential risk factors with improper wearing or fitting of contact lenses that can affect the overall health of your eyes.

Why is the contact lens exam not covered as part of my routine eye exam?

The Plan covers routine eye exams. A contact lens exam is an additional exam for contact lens wearers to determine the proper size and shape of contact lenses for your eyes and to evaluate your vision with the contact lenses. Depending on your needs, a doctor will provide services, such as training and education. You should discuss the services that your doctor provides to better understand the value of the contact lens exam, as well as the extent of the services necessary for your own eye health.

Coordinating with other plans

How are other plans' benefits coordinated with benefits under this Plan?

To coordinate benefits, the patient must provide the VSP network doctor with both covered members' names and the employee's social security number.

What if I am covered under two VSP plans?

If you are covered by two VSP plans, the following options for coordinating benefits exist:

- **One pair of glasses:** When the patient obtains one complete pair of glasses, the VSP benefits can be coordinated to offset plan copayment(s), lens options and/or frame overage.
- **Two pairs of glasses:** When the patient obtains two pairs of glasses, the secondary examination amount can be applied toward out-of-pocket expenses on both complete pairs of glasses.
- **Contact lenses:** When the patient receives contact lenses and an eye exam, the exam can be paid using the primary benefit. The contact lens allowances under both plans and a secondary exam amount can be applied toward the contact lenses.
- **Contact lenses and glasses:** When a patient receives prescription glasses (lenses and frame) or contact lenses, the secondary plan amounts available for services received through the primary plan (lenses, frame or contacts) can be applied to offset out-of-pocket expenses.

For More Information

For more information on how benefits are coordinated if you have coverage from another plan, the *Participating in Healthcare Benefits* section.

To obtain spousal or domestic partner coverage, you will need to complete an Affidavit of Eligible Family Membership declaring that:

Spouse / Domestic Partner

- You have already received a marriage license from a US state or local authority, or registered your domestic partnership with a US state or local authority.

Spouse Only

- Although not registered with a US state or local authority, your relationship constitutes a marriage under US state or local law (e.g. common law marriage or a marriage outside the US that is honored under US state or local law).

Domestic Partner Only

- Although not registered with a US state or local authority, your relationship constitutes an eligible domestic partnership. To establish that your relationship constitutes an eligible domestic partnership you and your domestic partner must:
 - be at least 18 years old
 - not be legally married, under federal law, to each other or anyone else or part of another domestic partnership during the previous 12 months
 - currently be in an exclusive, committed relationship with each other that has existed for at least 12 months and is intended to be permanent

If requested, you must provide documents verifying the registration of your domestic partnership with a state or local authority, your cohabitation and/or mutual commitment, or a marriage license that has been approved by a state or local government authority.

Once your Affidavit of Eligible Family Membership is completed and processed, you may cover the dependent child(ren) of your spouse or domestic partner.

BEFORE-TAX (PRE-TAX) CONTRIBUTIONS

Contributions taken from your paycheck generally before Social Security (FICA and Medicare) and federal unemployment insurance (FUTA) taxes and other applicable federal, state, and other income taxes are withheld.

CLAIMS ADMINISTRATOR

Vendor that administers the Plan and processes claims; the vendor's decisions are final and binding.

CONSOLIDATED OMNIBUS BUDGET RECONCILIATION ACT (COBRA)

A Federal law that lets you and your eligible family members covered by a group health plan extend group health coverage temporarily, at their own expense, at group rates plus an administrative fee, in certain circumstances when their coverage would otherwise end due to a "qualifying event", as defined under COBRA.

A "qualifying event" under COBRA includes loss of coverage as a result of your leaving the Company (other than for gross misconduct); a reduction in hours, your death, divorce or legal separation; your eligibility for Medicare, or a dependent child's loss of dependent status; or, if you are a retiree, loss of coverage due to the Company filing for bankruptcy.

COORDINATION OF BENEFITS

You or a covered family member may be entitled to benefits under another group health plan (such as a plan sponsored by your spouse's employer) that pays part or all of your health treatment costs. If this is the case, benefits from this plan will be "coordinated" with the benefits from the other plan. In addition to having your benefits coordinated with other group health plans, benefits from this plan are coordinated with "no fault" automobile insurance and any payments recoverable under any workers' compensation law, occupational disease law or similar legislation.

COVERED SERVICE(S)

See the detailed list of covered vision services covered under the plan.

Covered vision services must be provided:

- when the plan is in effect
- prior to the effective date of any of the individual termination conditions set forth in this Summary Plan Description
- only when the person who receives services is a covered person and meets all eligibility requirements specified in the plan.

Decisions about whether to cover new technologies, procedures and treatments will be consistent with conclusions of prevailing medical research based on well-conducted randomized trials or group studies.

The Claims Administrator determines only the extent to which a service or supply is covered under the plan and not whether the service or supply should be rendered. The coverage determination is made using the descriptions of covered charges included in this section and the Claims Administrator's own internal guidelines. The decision to accept a service or obtain a supply is yours.

DISABILITY

A physical or mental impairment that substantially limits one or more of an individual's major life activities.

ELIGIBLE FAMILY MEMBERS

Child/Dependent Child means:

- your biological child
- a child for whom you or your spouse are the legally appointed guardian with full financial responsibility
- the child of an approved domestic partner
- your stepchild
- your legally adopted child or a child or child placed with you for adoption.

Note: Any child that meets one of these eligibility requirements and who is incapable of self support by reason of a total physical or mental disability as determined by the Claims Administrator, may be covered beyond the end of the calendar year in which the child attains age 26.

Dependent children are eligible for healthcare coverage until the end of the calendar year in which they attain age 26. This eligibility provision applies even if your child is married, has access to coverage through his or her employer, doesn't attend school full-time or doesn't live with you, and is not your tax dependent.

Note: While married children are eligible for healthcare coverage under your plan until the end of the calendar year in which they attain age 26, this provision does not apply to your child's spouse and/or child(ren), unless you or your spouse is the child's legally appointed guardian with full financial responsibility.

The Company has the right to require documentation to verify dependency (such as a copy of the court order appointing legal guardianship). Company medical coverage does not cover foster children or other children living with you, including your grandchildren, unless you are their legal guardian with full financial responsibility—that is, you or your spouse claims them as a dependent on your annual tax return.

QUALIFIED FAMILY STATUS CHANGE (STATUS CHANGE, QUALIFIED CHANGE IN FAMILY STATUS)

An event that changes your benefit eligibility. For example, getting married and having a child or your spouse or dependent lose other coverage. You can make certain changes to your before-tax benefit elections that are due to and consistent with the change in family status.

QUALIFYING EVENT

A “qualifying event” under COBRA includes loss of coverage as a result of your leaving the Company (other than for gross misconduct); a reduction in hours, your death, divorce or legal separation; your eligibility for Medicare, or a dependent child’s loss of dependent status; or, if you are a retiree, loss of coverage due to the Company filing for bankruptcy.

WAITING PERIOD/ELIMINATION PERIOD
